

Caspase-3 identified as the key biomarker for apoptosis

Caspase-Glo[®] 3/7 Brings Add & Read Simplicity to Apoptosis Detection

The Caspase-Glo[®] 3/7 Assay has become the gold standard method for monitoring apoptosis in cultured cells. The single-reagent protocol and bioluminescent readout deliver unparalleled accuracy across a wide dynamic range. Whether you are trying to understand cancer, developmental biology or drug toxicity, the Caspase-Glo[®] 3/7 Assay will simplify your discovery process.
