

OpenURL

Source and Target

ScienceOnline.org

What is OpenURL?

The OpenURL standard enables you to add and manage your OpenURL configurations in one location for all your **HighWire-hosted journal subscriptions**. In a nutshell, the OpenURL standard supports mediated linking from information resources (sources) to library services (targets).

How is it helpful?

If you have an OpenURL link resolver, such as SFX for example, then this resolver will allow you to create links back to your library holdings in the reference sections of selected journals. This helps the user find the most appropriate copy of the article he or she is seeking at your institution.

How to add your Institute's Resolver Base URL

1

Go to ScienceOnline.org and choose **LIBRARIANS** from the top navigation bar to access the AAAS/*Science* Portal for Librarians.

The screenshot shows the Science AAAS website interface. At the top, the 'Science' logo is on the left, and navigation links 'AAAS.ORG', 'FEEDBACK', and 'HELP' are in the center. A red box highlights the 'LIBRARIANS' link in the top navigation bar, with an orange arrow pointing to it from the number '1'. To the right of 'LIBRARIANS' is a search bar with 'Science Magazine' selected and a search button. Below the navigation bar is a red banner with links for 'NEWS', 'SCIENCE JOURNALS', 'CAREERS', 'BLOGS & COMMUNITIES', 'MULTIMEDIA', 'COLLECTIONS', and 'JOIN / SUBSCRIBE'. The main content area features a featured article titled 'NATURAL IMMUNIZATION AGAINST MALARIA' with a world map, a 'NEWS' section with articles like 'Illegal Logging Has Dropped Dramatically--Or Has It?' and 'A New Engine for Plate Tectonics', and a 'Science' magazine section with 'The Science of the Oil Spill' and 'Sickle Cell Disease at 100 Years'. There are also advertisements for 'Mass Spectrometry' and 'The Non-Coding Genome'.

2

From the **Help for Librarians** menu located on the left-hand side, choose **Manage your Account**.

3

To add your Institute's **Resolver Base URL**, choose **Update Your Account Information**.

4

At this point you will have to enter your user name and password to access the site.

5 On your Account Information page, you can add (or edit) your **Resolver Base URL** and the corresponding **Link Text**.

Change User Info

Institution Name: Your Institution Name

AAAS Number: Your AAAS Number

Administrator Name: Your Name

E-mail Address: Your E-mail Address (Please proof carefully.)

Phone Number: Your Phone Number

Fax: Your Fax

Institution URL:

Institution Logo: Change...

Resolver Base URL: Your Resolver Base URL

Link Text: Your Link Text

OpenURL Button: Change...
<none>

NEW:

Your Resolver Base URL can now be *either text only* (Link Text) **or an image** (OpenURL Button.) The text or image will appear after the cited reference.

6

Add Your OpenURL Button: Click the **Change** link next to **OpenURL Button** to choose your **logo image** from your computer.

If you prefer adding text only for your Resolver Base URL, go directly to step 11 on page 6.

7 Click the **Browse** button to find an **image file** on your computer.

Choose the image file you want to use for your OpenURL Button and click **Open**.

NOTE: The maximum dimensions for your image are 150px wide x 30px high. Maximum file size is 15KB. Supported file formats are GIF, JPEG, and PNG.

*If your image exceeds these dimensions, you will receive a notice that your image has been resized to meet the required dimensions. You can either accept the modified version of your image by clicking **Accept This Image** or **Browse** your files to choose an image that does meet the required dimensions.*

8

The **path** to the image file you chose appears in the field next to **New Image**. Click **Submit Query** to upload this file.
